

10th Class

Computer Science	Model Paper 6	Paper: II
Time: 15 Minutes	(Objective Type)	Marks: 10

Note: Four possible answers A, B, C and D to each question are given. The choice which you think is correct, fill that circle in front of that question with Marker or Pen ink in the answer-book. Cutting or filling two or more circles will result in zero mark in that question.

1-1- In order to correctly perform any task, we need to have proper _____.

- (a) Tool ✓ (b) Software
(c) Parts (d) All

2- Usually comments are written in:

- (a) Programming coding
(b) Curly braces
(c) Natural language ✓
(d) None

3- C language offers _____ to display the output, and scanf function to get input from user.

- (a) printf function ✓ (b) getch function
(c) print function (d) scan function

4- _____ are applied over one operand only.

- (a) Binary operators
(b) Logical operators
(c) Relational operators
(d) Unary operators ✓

5- The associated code is, any valid C language set of _____.

- (a) Control (b) Rules
(c) Statements ✓ (d) All

6- _____ executes the set of statements under if statement if the condition is true.

- (a) If ✓ (b) Else
(c) If else (d) If else if

- 7- _____ is a container to store collection of data items in a specific layout.
- (a) Loop (b) Data structure ✓
(c) Control structure (d) Array
- 8- If we need to repeat one or more statements, then we use:
- (a) Statement (b) Variables
(c) Loops ✓ (d) All
- 9- The functions which are available in C Standard Library are called _____.
- (a) Built-in functions ✓
(b) Custom built function
(c) Common function
(d) None of these
- 10- If the definition of called function appears after the _____ function, then function signature of called function must be written before the definition of calling function.
- (a) Function
(b) Function statement
(c) Definition of calling ✓
(d) All
